# Pop Inspired Singer/Songwriter/Multi-instrumentalist Juliana Hale to Release New Single, May 28, 2021 on 3Thirteen Entertainment Group/ eOne

Singer/songwriter/multi-instrumentalist, Juliana plays guitar, bass, piano, flute and ukulele. She is inspired sonically by Mac Miller, Taylor Swift, My Chemical Romance and Jimi Hendrix. Recently, her tastes have shifted to Halsey, Dua Lipa, The Neighborhood, and more. Her eclectic vibe reveals a provocative songwriting style that combines elements of pop, dance and hip hop.

She will release her debut single, "Chill" on 3Thirteen Entertainment Group/ eOne on May 28, 2021. "Chill" was produced by Grammy Award-winning producer Earl Cohen (Lady Gaga, Pink, Usher, Whitney Houston) and mixed/mastered by **Derek Minor**. "Juliana is a new pop artist with soul who can compete with the best of them. She has an amazing tone quality that is one of a kind and very special," says producer Earl Cohen.

"Chill" was written in 2020, during the initial Coronavirus outbreak; the recording process was unique. "I wrote the song over a series of several zoom calls. Some of the vocals were recorded remotely and then recorded in the studio," explains Juliana.

"Chill" was inspired by a feeling of calmness in the madness last year during the pandemic. "Life is too short to be insecure and to be paralyzed by fear. I think the more you become grateful for being alive and appreciating the small things, your overall perspective and attitude will change for the better," says Juliana.

"Chill" will be followed by a lyric video and then a video with Juliana painting using a method called acrylic pour painting. "I want to incorporate art into my live show and start sharing that part of my personality with more people," adds Hale.

A Renaissance woman, Juliana's need to create consumes her. A dedicated and multi-talented musician, songwriter and artist, Juliana is paving the way for women who are taking the lead. The re-birth of Juliana Hale, as an artist is part of a new wave of artists. The world needs more positivity, and it is artists like Juliana who, we hope, will inspire others to follow their dreams.
